OBJECT OF THE INVITATION TO BID

1. GENERAL

1.1 OWNER

The Owner is Suez International Nitrate Company SINCO, a company established under Egyptian laws.

SINCO is hereby issuing this Invitation To Bid to **VACUUM-GUIDE** in order to obtain their lump sum offers for **1 Ejector**.

SINCO have selected Misr Petrochemicals Co. (Dr. Eng. Ashraf Omar) for Project Management, and have allowed MIPEC to issue the bids on behalf of Owner.

1.2 Design and Procurement Quality

Equipment and supplies are required for a modern, up-to-date-completely operable, reliable plant, capable of producing the quality and quantity of products guaranteed.

1.3 Confidentiality

Drawings and/or technical specifications, which are part of this ITB are to be treated confidentially and kept secret towards third parties unless otherwise agreed upon in writing. Furthermore, the Bidder commits not to duplicate these documents neither directly nor indirectly not to lend them nor to use information made known to him exclusively for purposes of this bid preparation.

Any illegal use by Bidder of this ITB's or information shall automatically be subject to legal practice.

2. Bidding Instructions

- 2.1. This Invitation to bid is being issued in order that a Bidder may be selected on the basis of proposals responsive to the requirements of this invitation.
- 2.2. Prequalification:
Firms applying should provide the maximum information concerning their previous references, at least in the last ten years, for similar items, including names of product, plants owners, locations, licensors, design capacities, date of start-up, services presented by bidder,....etc.
- 2.3. Successful Bidder should deposit a final bond of 10% of order value in a maximum of 10 days period starting from the notification date of accepting his tender.
- 2.4. In case of delay in delivery by the successful Bidder, a penalty of maximum 5% will be inflicted.
- 2.5. Bids should be presented in two separate parts, one being a commercial bid containing the Bidder's proposed price and terms of payment and the other being a technical bid which will not contain the price.

The evaluation of bids will be done based on several weighing factors, such as:

- *Prequalification file and staff experience
- *Recent references in successful similar jobs, and cooperation with international licensors and contractors.
- *Cost
- *Prompt response of specialists on site at request and cost per day
- *Use of state of the art techniques and programs.

3. Language and Units

All technical data, specification, drawings, description and correspondence shall be in English Language. Brochures as well as catalogues will be submitted in the Manufacturer's language, translated into English, by Manufacturer's services. Important information like dimensions, erection and operating instructions as well as maintenance instructions of equipment will be in English Language.

Units to be in SI system.
